4th Grade News

Important Information:

- Now that devices has been distributed, all assignments on “distance learning days” must be submitted on Teams. Assignments will close at 5 pm daily. Students who have not submitted work by 5 pm will be counted absent and receive a 0 for the assignments they missed. Students will have to complete reading, math, and science work daily in order to be counted present. For example, if a student completes math work, but not their reading work, they will be counted absent for that day.
- Mrs. Eaves and Mrs. McDill have work hard on preparing a “Technology Guide” for you. These have been sent home with hybrid students, as well as a card with their login information you may need to access devices and programs. PLEASE refer to this guide before calling or texting your child’s teacher. More than likely the question you have can be answered in the guide.
- Holiday Enrichment Packets are being sent out this week. Virtual students are more than welcome to pick up a packet at the safe-site if you would like to have a paper pencil copy. Virtual students will turn in work via Teams. Hybrid students will turn in packets in on the assigned days. Please refer to the cover of the packet for specific turn in dates.

Important
